

Seminar organisation

A new implementation

The applications

- Original application
 - Served as model for implementation
- Seminar organisation (Version 1.4)
 - Implemented by Mihajlo Kresojević and Ivan Pribela
 - Tested and polished by **Unknown Student**

Main window

- Shortcut buttons are added for
 - Seminars
 - Clients
 - Companies

File menu

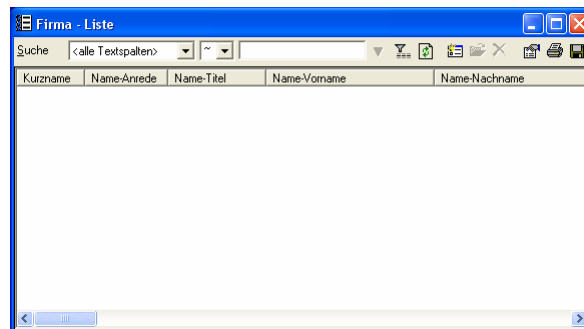

- No export and import
 - Can be done manually by copying file "SemOrg.jds"
- No reports
 - Why?
 - There were reports in previous version

Menu for editing data

- Is structured too
 - Divided into logical categories
 - Same reasons
