

Publikationsverzeichnis (begutachtet)

42. Funato, M., H. Murakami, W. Kössler, und A. Mukherjee **2024**. Nonparametric Tests for Combined Location-Scale and Lehmann Alternatives using Adaptive Approach and Max-type Metric, Journal of the Korean Statistical Society, accepted.
41. Kössler, W., H.-J. Lenz und X.D. Wang **2024**. Some new invariant sum tests and MAD tests for the assessment of Benford's Law, Computational Statistics, doi: <https://doi.org/10.1007/s00180-024-01463-8>
40. Kössler, W., H.-J. Lenz und X.D. Wang **2023**. Detecting manipulated Data Sets using Benford's Law. in: Frontiers in Statistical Quality Control, under review.
- 39a. Mukherjee,A., W. Kössler und M. Marozzi **2022** Laymans Abstract to A distribution-free procedure for testing versatile alternative in medical multisample comparison studies, Statistics in Medicine 2022, doi: <https://www.statisticsviews.com/article/laymans-abstract-for-statistics-in-medicine-on-a-distribution-free-procedure-for-testing-versatile-alternative-in-medical-multisample-comparison-studies/>
39. Mukherjee,A., W. Kössler und M. Marozzi **2022** A distribution-free procedure for testing versatile alternative in medical multisample comparison studies, Statistics in Medicine 2022, doi: <https://onlinelibrary.wiley.com/doi/10.1002/sim.9397>
38. Mukherjee, A., W. Kössler und H. Murakami **(2021)**. Two New Distribution-Free Two-Sample Tests for Versatile Alternative Statistics, DOI: 10.1080/02331888.2021.1998053. <https://doi.org/10.1080/02331888.2021.1998053>.
37. Kössler, W., H.-J. Lenz und X.D.Wang **(2021)** Is the Benford Law useful for data quality assessment? In: Frontiers in Statistical Quality Control, Springer, vol. 13, p.391-406
36. Mukherjee, A., W.Kössler **(2020)**. Distribution-Free Simultaneous tests for Location-Scale and Lehmann Alternative in Two-Sample Problem Biometrical Journal 62, 99-123. Article ID: BIMJ2042, Article DOI: 10.1002/bimj.201900057, Internal Article ID: 16549193
35. Falkenhagen, U., W.Kössler, H.-J.Lenz **(2019)** Inlier Detection. in: A.Steland, E. Rafajlowicz, K.Szajowski (Eds.) Stochastic Models, Statistics and Their Applications, Proceedings of a Workshop, Dresden, March, 2019, 351-362.
34. Kössler, W., H.-J. Lenz und X.D.Wang **(2019)** Is the Benford Law useful for data quality assessment? Proceddings of the 13th international workshop on intelligent statistical quality control, Hongkong 12.-14 August,2019, 109-122.

33. Kössler, W. und A. Mukherjee (**2019**). Distribution-Free Simultaneous tests for Location-Scale and Lehmann Alternative in Two-Sample Problem, *Biometrical Journal*
Article ID: BIMJ2042, Article DOI: 10.1002/bimj.201900057, Internal Article ID:
16549193
32. Kössler, W. und J. Ott (**2018**). Two-sided variable inspection plans for arbitrary continuous populations with unknown distribution, *Journal AStA Advances in Statistical Analysis*, (), 1-16,
- 31a. Steland, A. und W. Kössler (ed.) 13th Workshop on Stochastic Models, Statistics, and their Applications, (**2017**)
31. Kössler, W. und N. Kumar. An adaptive test for the two-sample scale problem where the common quantile may be different from the median, *Statistical Methodology* 29 (**2016**), 10-17.
30. Kössler, W. Variable Inspection Plans for continuous Populations with Unknown Short Tail Distributions in: Steland, A. E. Rafajlowicz, K. Szajowski (ed.) *Proceedings of the Workshop on Stochastic Models, Statistics, and Their Applications*, Wroclaw University of Technology, (**2015**), 93-100.
29. Zeugmann, S., A. Quante, L. Popova-Zeugmann, W. Kössler, I. Heuser und I. Anghelescu, Pathways linking early life stress, metabolic syndrome, and the inflammatory marker fibrinogen in depressed patients, *Psychiatria Danubina* 24 (**2012**), 57-65.
