

# 3. METRIK 11./12. Oktober 2007 Workshop

## *Data and Service Management in Self-Organizing Systems*

Donnerstag, 11.10.2007, 10:00-17:00

- 10:00 Prof. Dr. Gustavo Alonso, ETH Zürich  
*Software Adaptation for large scale SOA*
- 11:30 Stefan Brüning, GK METRIK, HU Berlin  
*Reliable, Service-Based Infrastructures  
for Disaster Management*
- 12:00 Mittagspause
- 13:00 Prof. Arno Jacobsen, University of Toronto  
*The PADRES Enterprise Service Bus*
- 14:30 Artin Avanes, GK METRIK, HU Berlin  
*Transactional Workflows in Self-Organizing Systems*
- 15:00 Pause
- 15:30 Dr. Annika Hinze, University of Waikato  
*Service Collaboration in Location-aware Applications*
- 16:30 Diskussion

Freitag, 12.10.2007, 10:00-17:00

- 10:00 Prof. Dr. Gustavo Alonso, ETH Zürich  
*The Service Revolution - software engineering  
without the burden of programming languages*
- 11:30 Timo Mika Gläßer, GK METRIK, HU Berlin  
*Query Processing for Wireless Sensor Networks*
- 12:00 Mittagspause
- 13:00 Prof. Arno Jacobsen, University of Toronto  
*Content-based Routing in General Overlay Topologies*
- 14:30 Bastian Quilitz, GK METRIK, HU Berlin  
*Semantic Integration of Geographic Data*
- 15:00 Pause
- 15:30 Prof. Andreas Polze, HPI Potsdam  
*Operating System Support for Service Computing*
- 16:00 Matthias Uflacker, Forschungskolleg, HPI Potsdam  
*Resource-oriented Knowledge Networks*
- 16:30 Diskussion
